Tim,

The TR card was used on 4/28/2022 to obtain a hotel room for two juveniles and one adult parent who were victims of a domestic violence.

The parent and siblings were assaulted by an adult sibling who was staying with the family at their apartment. Due to the need for continued de-escalation and mental health outreach we were not able to get the suspect out of the residence for several hours and believed that the best option to keep the victims safe were to place them in the hotel so we could continue to try and get the suspect in custody.

Eventfully we made entry into the apartment and took the suspect into custody without incident.

Please thank the Board for allowing us to have the card to serve those in need.

Talk soon,
JM
